1952

BROCK HIGH SCHOOL

Foreword

We, the Annual Staff, have done our best to make this year's Annual one you will always remember.

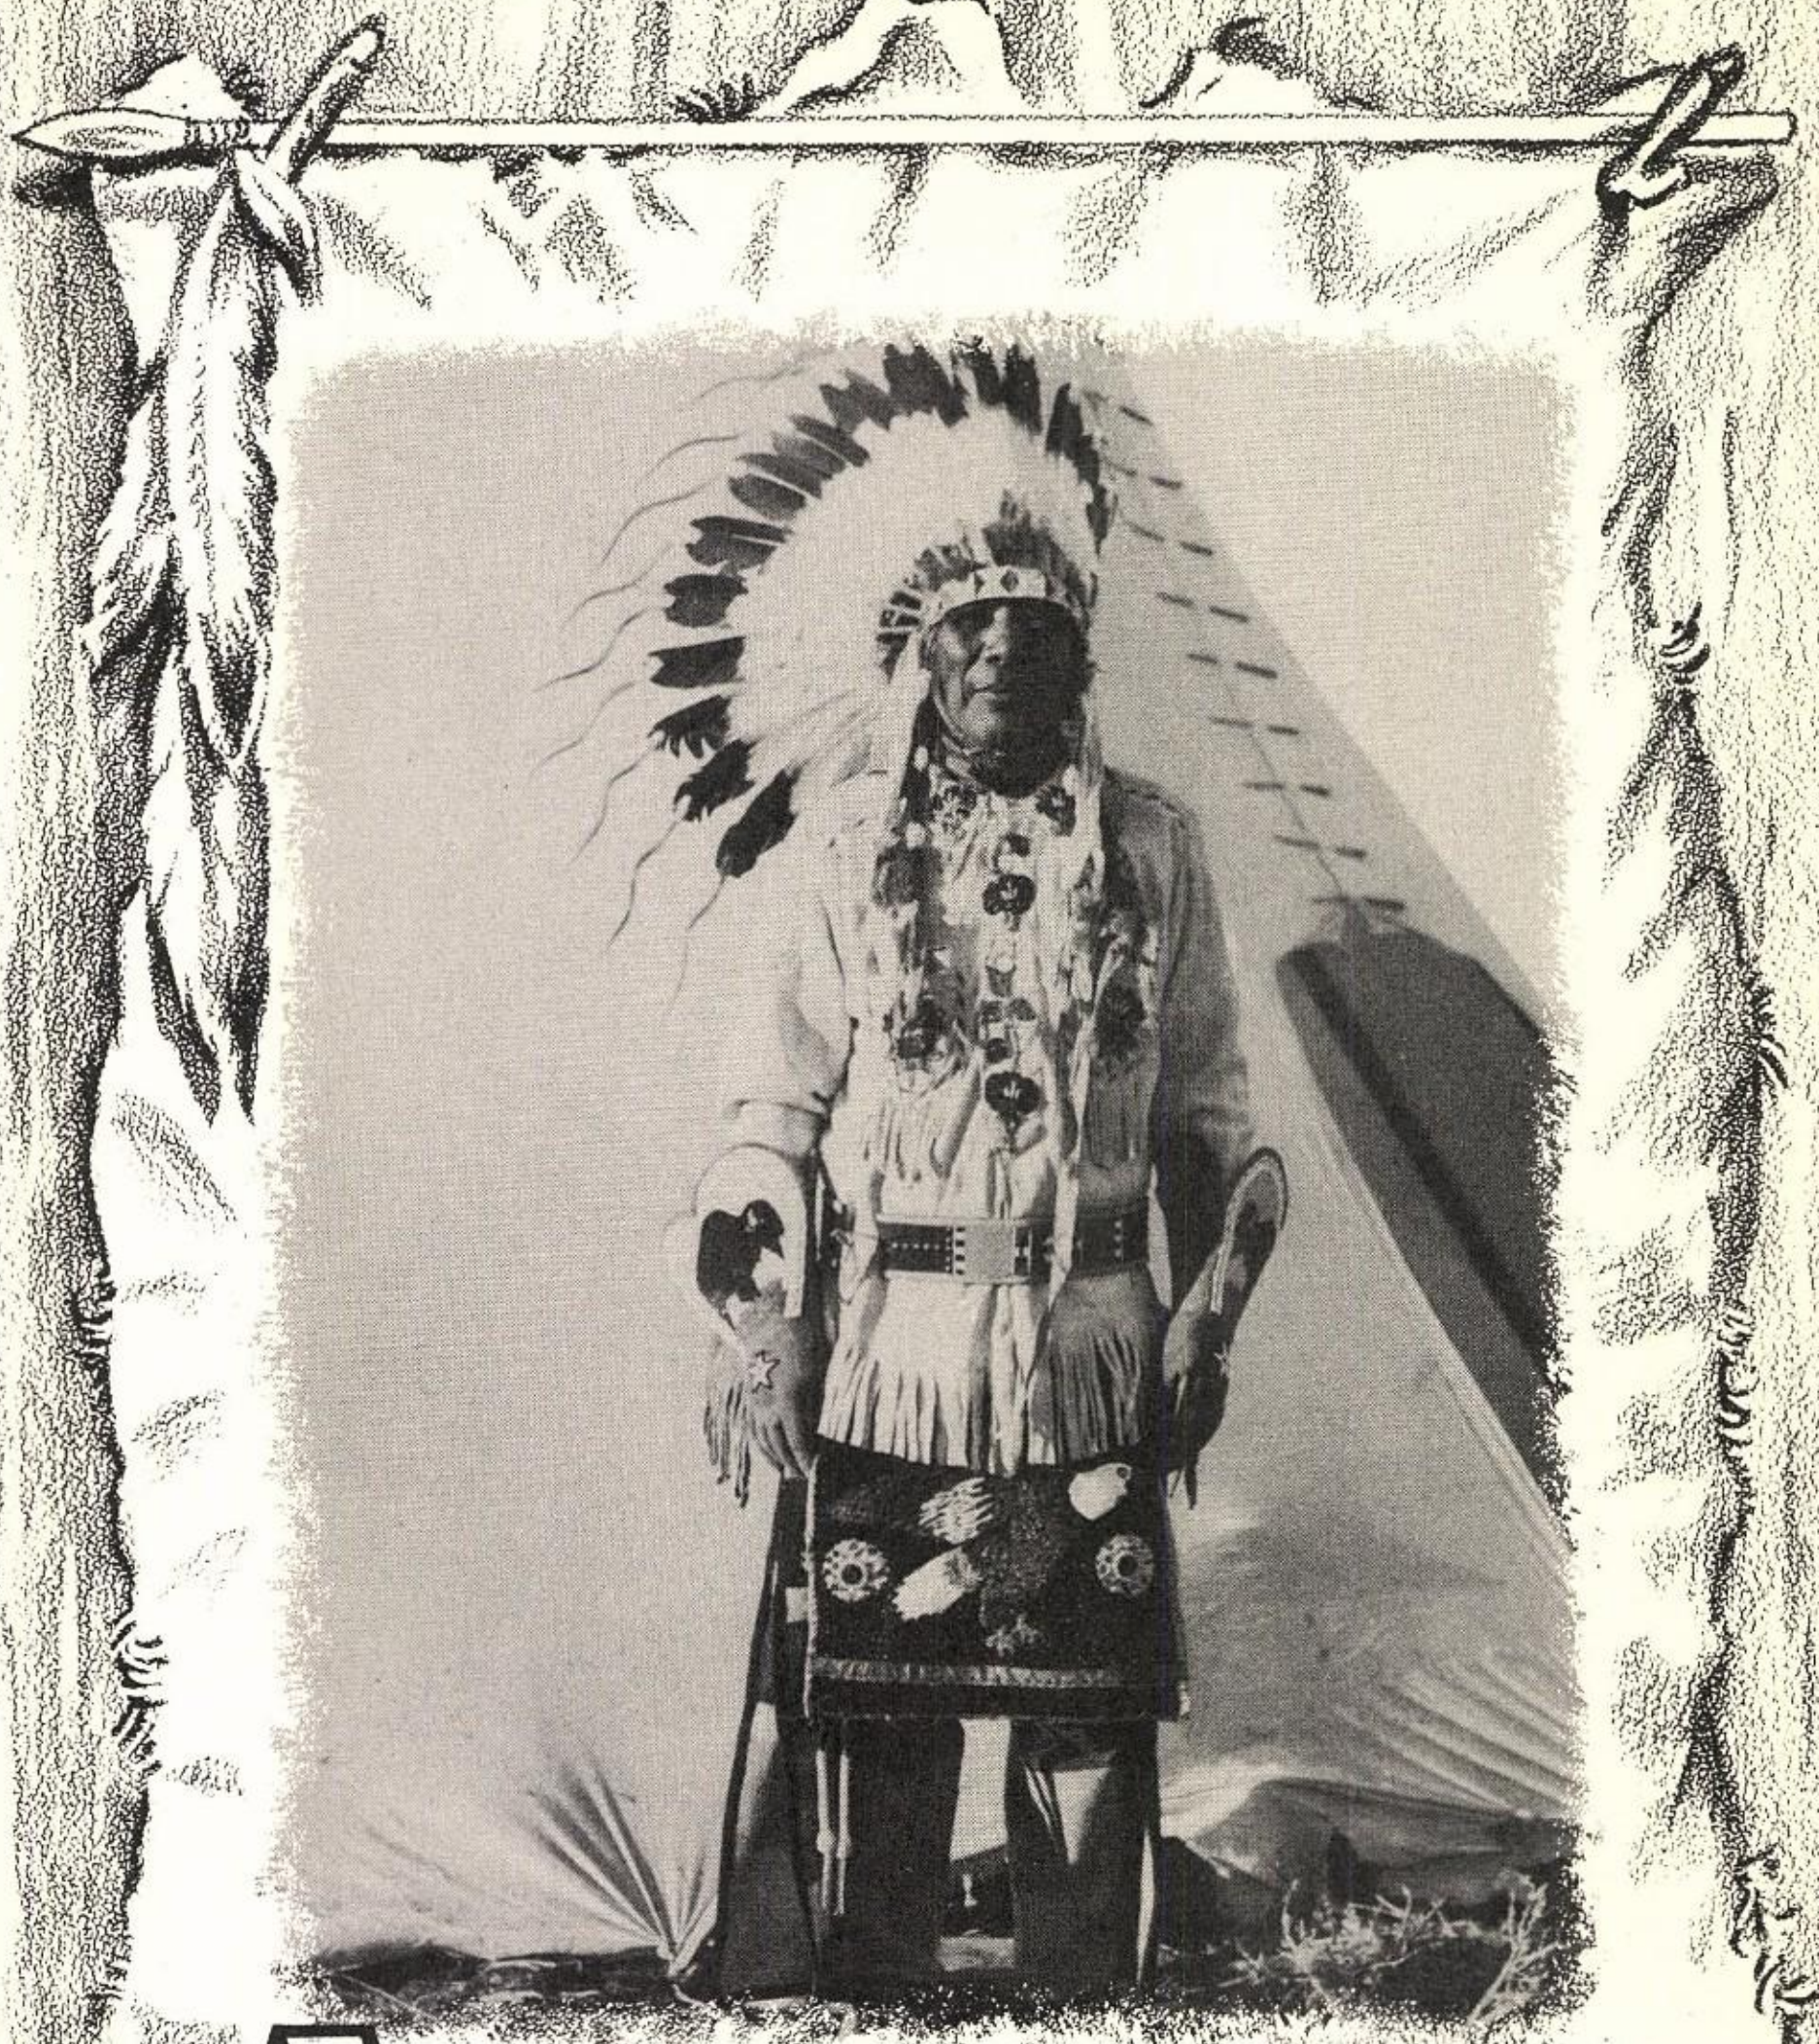

As a tie that binds those who are yet to come and those who have gone before, we present The Eagle of 1952.

Dedication

Because she has always carried the best interest of our school at heart, because she has commenced so many of our youth and served them with unselfish effort--we, the Annual Staff, lovingly and appreciatively dedicate this--our 1952 Annual, to Mrs. Mae Bledsoe.

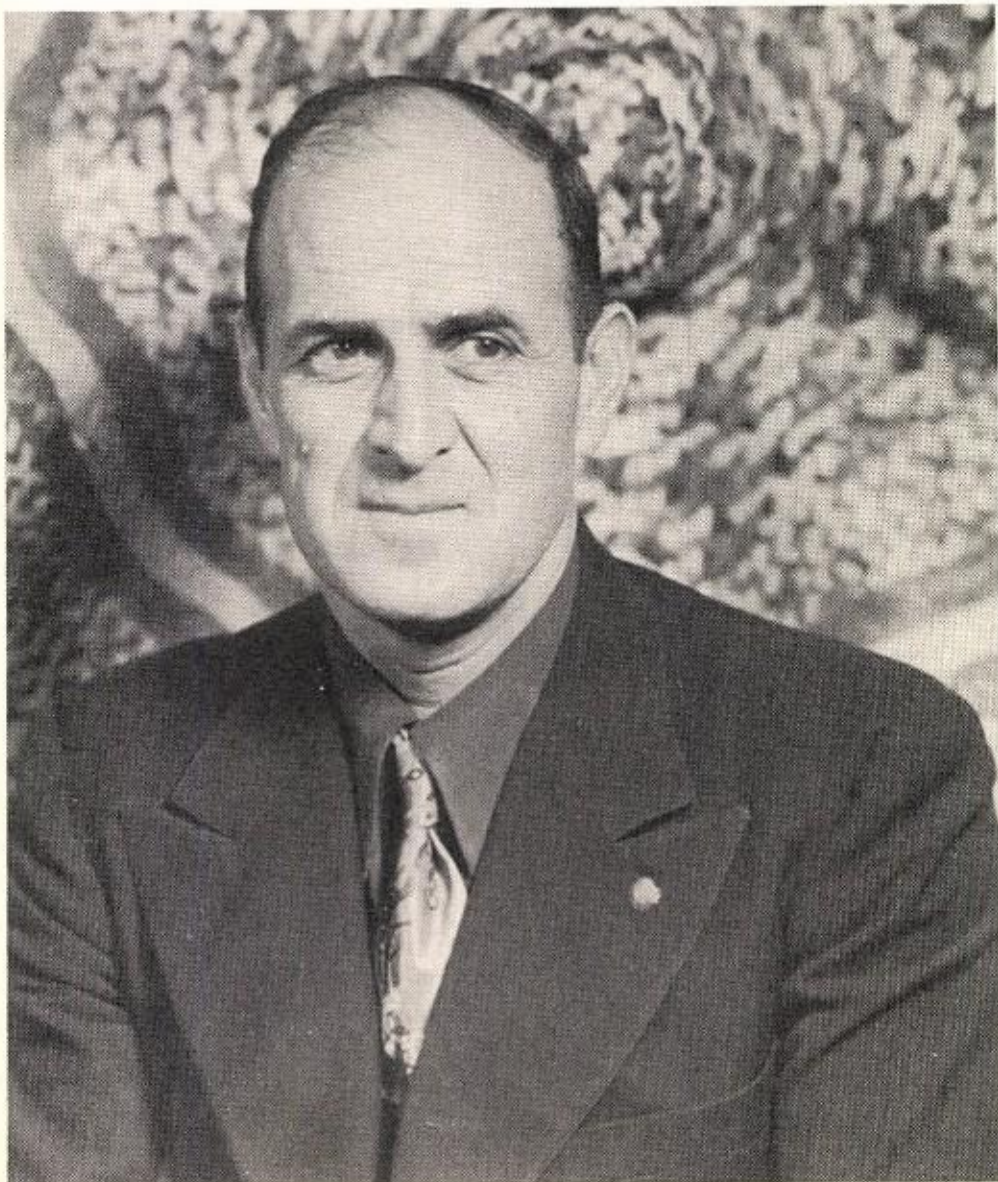

A Administration

Working together, we are going forward with what we think is a successful year. Whether in the classroom or elsewhere, we see the sinews from which character and citizenship are built; strengthened by cheerful performance of duty, by seriousness of purpose, and a wonderful School Spirit. These attributes will carry over into whatever Life Purpose is planned for us.

Whatever Brock School has to be thankful for is the result of the "wee bit" from many willing hands and warm hearts working together.

Thank God for the privilege to learn, to grow, and to work out our own destiny in such an environment.
Congratulations!
Thanks!

Frank H. Elder

I wish to congratulate the class of 1951-52 for your work completed at Brock High School.

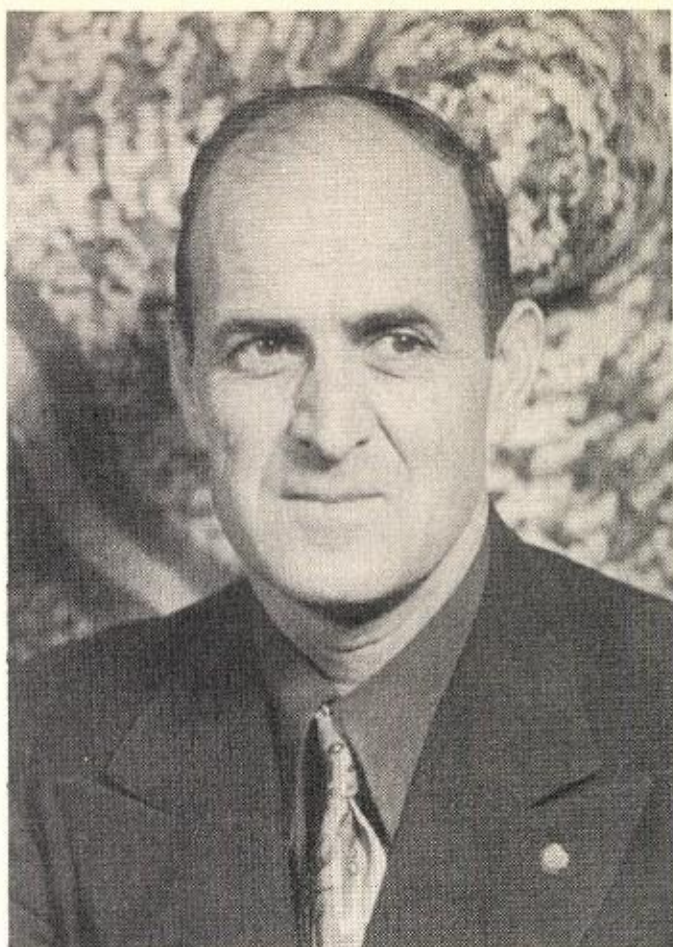

In the years to follow may you remember a few of the useful duties and tasks of being a clean and honest citizen. May you always try to do the best for your fellowman. Strive always for honesty, loyalty, and dependability.

Always remember that the philosophy of service is "service above self" and that this service is based on the ethical principle that "He profits most who serve best."

Sincerely,
Jae H. Harper

GUESS WHO

Olene Jones

On the morning of October 3, 1951, A. D., at precisely 9:11 o'clock, thirteen stealthy creatures emerged from a blue, two door, forty nine Ford in the city of Weatherford, Texas, U.S.A. On the faces of these characters was a look of grim determination. With the important realization of what this mission meant, they patriotically vowed in their heart to do or die. Each one started for his assigned area with a look of cautious apprehension about him. Grouping off in twos and threes, they silently set about their task. From some unknown source, the police were informed of these strange acting visitors. With machine guns set and ammunition ready, they prepared for what ever disaster might fall.

At exactly 9:36, two of these strangers entered the bank. Telephones began to buzz on every corner to alert all city policemen. Much to everyone's surprise, the suspected ones appeared back at the front door of the bank in less than ten minutes with nothing drastically wrong----yet. About the time these three alighted from the bank, two more had been spotted on another corner going into a jewelry store. Again, tenseness prevailed and all were alerted. Exactly fifteen minutes later these two emerged from the jewelry store with a pleased look of satisfaction about them and made their way down the crowded street. On the other side of town, three more of these suspicious looking characters were being followed. This time they entered an oil refining company. Outside, the atomic bomb had been readied for use. Eighteen minutes later the three reappeared much to everyone's relief. This time a little brown bag which they were carrying was spotted. What did it contain? This was certainly a serious situation. By this time, the G Men and President Truman had been contacted. Thus, the city policemen, the G Men, and President Truman combined wits to cope with this hectic plot. After considering, they decided it would be best to call out the Marines and have the Air Force and Navy stand by. Due to the watchful eye of one of the protectors, another group was seen going into a theater. In about eight minutes they came out and continued on their secret mission. A mysterious air and alert tenseness settled over the town. What was taking place? Was this to be the city's doom? But suddenly a cry of good news rang out. The G Men had found a solution. At 4:27 they would seize the mysterious characters and reveal their scheme. Everyone waited. Time passed slowly. -----Tick----tock----tick----tock. At 3:15 the characters assembled back where they had met.

At 3:17 the blue, two door, forty nine Ford pulled up to the curb and all thirteen entered as silently as they had descended. At 3:19 the forty nine Ford pulled away with the stealthy characters and headed west, leaving the President, the police, the G Men, the Marines and the Navy in surprised astonishment. Just then an announcement came forth from K.O.R.C., and I quote —

"The Annual Staff of Brock High School appreciated the Weatherford business men's kindness and help in their soliciting of ads for the 1952 Annual."

And now, all is quiet and peaceful once again on the streets of Weatherford.

We, the Annual Staff, wish to express our sincere thanks and appreciation to the business firms of our county for your kindness and generosity. Without your assistance our 1952 Year Book would not have been a success.
